

Garmin® & Magellan® Compatible GPS Antennas

Gilsson Technologies' amplified external GPS antennas are high performance patch antennas with state-of-the-art low noise amplifiers. They provide a low-cost and better-performing alternative to Garmin, Magellan, and Navman original antennas, particularly Garmin's popular GA 26C and GA 27C models.

The antennas enhance reception of GPS signals under even the most strenuous conditions. They feature:

- Heavy-Duty Construction
- High dB Gain
- Extremely Low Power Consumption
- Wide Operating Voltage
- A wide array of available connectors
- Multiple cable length, color, and mounting options
- Extremely portable size and weight

All Gilsson products are designed, manufactured and tested at ISO 9000/9002 certified facilities under stringent standards.

To order, call toll-free 1-866-GILSSON, (510) 940-7777, or visit us online at <http://www.gilsson.com>
