

Garmin® & Magellan® Compatible GPS Cables

R12C

for Garmin GPS, GPSMap, StreetPilot, and ColorMap series

Gilsson Technologies' cables are designed to meet and exceed the already stringent ISO 9000 quality control standards. Each cable is individually tested and guaranteed to survive the most extreme conditions on land, sea, and in the air.

Gilsson Technologies cables provide essential connectivity and power solutions for GPS devices. The cables complement many Garmin and Magellan GPS devices, such as the eTrex series, Street Pilot III series, GPS V, GPSMAP 60/60CS, GPS 72/76 series, GPS 96/C, GPS 176/C, eMap, and Geko GPS models, satisfying every conceivable need.

Gilsson Technologies is the largest manufacturer of Garmin® compatible cables, antennas, neoprene carrying cases, datacards, GPS mounting brackets and accessories.
