

# Garmin® & Magellan® Compatible GPS Data Cards

Gilsson Technologies' datacards are guaranteed to be 100% Garmin compatible! With Gilsson datacards, you can expand the memory in your portable, automobile, aviation or marine GPS receiver. More space means more maps, more detail, more points of interest, more phone numbers, more topographic information, and more BlueChart cartography!

Each Gilsson datacard is individually tested and guaranteed to be in perfect condition and 100% compatible with Garmin products. Gilsson products are priced well below Garmin OEM and are designed, manufactured and tested at ISO 9000/9002 certified facilities with the most exacting standards.

DC64
