

Garmin® & Magellan® Compatible GPS Data Cards

Gilsson Technologies' data cards are guaranteed to be 100% Garmin compatible! With Gilsson data cards, you can expand the memory in your portable, automobile, aviation or marine GPS receiver. Expanded memory means more maps, more detail, more points of interest, more contact information, detailed topographic information, and up-to-date BlueChart cartography!

Each Gilsson datacard is individually tested and guaranteed to be defect-free and 100% compatible with Garmin products. Gilsson products are priced well below Garmin OEM and are designed, manufactured and tested at ISO 9000/9002 certified process facilities.

DC64
